# Welcome Message

Welcome to the 17th edition of Eco Expo Asia, organised by the Hong Kong Trade Development Council and Messe Frankfurt (HK) Ltd, and co-organised by the Environment and Ecology Bureau of the Government of the Hong Kong Special Administrative Region.

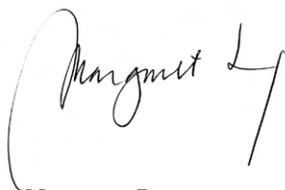

Eco Expo Asia has long been recognised as a leading event for green industries in the region, showcasing innovative eco-friendly products and solutions, equipment and technology. This year the expo adopts the EXHIBITION+ hybrid model, providing buyers with sourcing opportunities not only at the Hong Kong Convention and Exhibition Centre, but also through the expo's website and the hktcdc.com Sourcing platform. The hybrid model also lets buyers schedule and conduct more meetings with local and overseas exhibitors from 14–24 December through the smart business matching platform, Click2Match.

The 2022 edition of Eco Expo Asia aims to highlight the role of Hong Kong and the Guangdong–Hong Kong–Macao Greater Bay Area in supporting Mainland China's drive to achieve carbon peak emissions by 2030 and carbon neutrality by 2060. Running under the theme "Green Innovations for Carbon Neutrality", the expo explores four key topics: carbon neutrality, new energy, green finance and ESG, and green transport. The event is hosting more than 220 exhibitors from nine countries and regions, divided into zones including Eco-friendly Products, Green Buildings and Energy Efficiency, Green Finance and ESG-related Services, Green Transportation, Waste Management and Circular Economy, Water Treatment and Quality Management, as well as the Startup Zone.

The annual Eco Asia Conference is a not-to-be-missed part of the expo. This year, heavyweight speakers share their views on "Circular Business Model", "Hydrogen Economy", "Retro-fit for Building Energy Efficiency" and "Green & Sustainable Finance".

Just as important as policymakers and manufacturers, consumers play a key part in helping to achieve carbon neutrality. That's why Eco Expo Asia always welcomes the public to visit, and this year is no exception. The expo opens its doors to public visitors on the last day, where they can attend talks, join workshops and shop for sustainable products at the Green Mart.

On behalf of the Hong Kong Trade Development Council, Messe Frankfurt, our co-organiser and all the supporting organisations, we wish you every success at Eco Expo Asia and a fruitful year ahead.

**Margaret Fong**  
Executive Director  
Hong Kong Trade Development Council

**Richard Li**  
Executive Director  
Messe Frankfurt (HK) Ltd

# Welcome Message

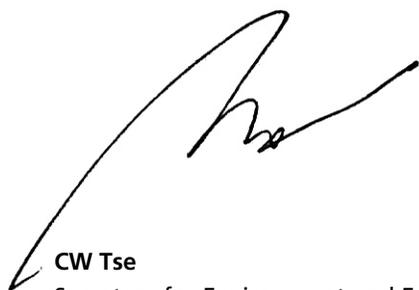

It is my great pleasure to welcome you to the Eco Expo Asia 2022 at the Hong Kong Convention and Exhibition Centre. This year's Eco Expo Asia is featured as one of the celebration activities of the 25th anniversary of the establishment of the Hong Kong Special Administrative Region (HKSAR). In consonance with HKSAR's target of achieving carbon neutrality before 2050 and to exemplify the role of smart technologies in sustainable development, this year's Eco Expo Asia is themed around "Green Innovations for Carbon Neutrality".

As a flagship event on the environmental fronts in Hong Kong and the region, the Eco Expo Asia 2022 will continuously play an important role in serving as a platform for entrepreneurs, scholars, professionals, and talented young people to exchange decarbonisation solutions, and providing opportunities for companies and other government authorities to showcase state-of-the-art technologies and products in a bid to combat climate change and help build a world-class smart city. The Environment and Ecology Bureau will take the lead among the ten government bureaux/departments to exhibit a series of innovative and green initiatives highlighting five key zones, including "net-zero electricity generation", "energy saving and green buildings", "green transport", "waste reduction" and "smart technologies".

To illustrate how the sustainable development can go hand-in-hand with economic growth, the Eco Asia Conference will once again feature "Green and Sustainable Finance" and incorporate the "Carbon Market" element for the first time this year. It is crucial to capitalise on the enormous green finance opportunities during the green transformation of the economy, with a view to enlarging our industry capacity on resilience to climate risks and encouraging more financial institutions to set foot in Hong Kong. Besides, the Eco Asia Conference will introduce a "Hydrogen Economy Forum" this year, which provides insights to the stakeholders regarding Hong Kong's long-term target of attaining zero vehicular emissions and zero carbon emissions in the transport sector before 2050.

Meanwhile, to capitalise on Hong Kong's strategic position in engaging the world and the fortuitous advantage of leveraging supports from the Mainland, we endeavour to seize the wide-ranging opportunities offered by the Eco Expo Asia to bring in international capital for cooperation and joint investment to create a conducive environment that contributes to environmental wealth in the future. The cooperation within the Guangdong–Hong Kong–Macao Greater Bay Area will be deepened and broadened with a view to building up an exemplary green and picturesque, and economically vibrant region.

We invite you to embark on Hong Kong's deep decarbonisation journey together, with staunch determination to achieve carbon neutrality before 2050 and to contribute to combat global climate change. I look forward to your support and active participation in making Eco Expo Asia 2022 a great success. Let us continue to explore and tell the good environmental stories of Hong Kong.

**CW Tse**  
Secretary for Environment and Ecology  
Hong Kong Special Administrative Region

# 歡迎辭

歡迎各位蒞臨第17屆國際環保博覽。博覽由香港貿易發展局及法蘭克福展覽（香港）有限公司主辦，並由香港特別行政區政府環境及生態局協辦。

國際環保博覽為業界提供一個重要的平台，展示創新環保產品與方案、設備及科技，是區內領先的環保活動。今年，博覽以全新的「EXHIBITION+」（展覽+）實體及網上融合模式舉行，讓買家的採購旅程由香港會議展覽中心現場，延伸到博覽網站及全年無休的「貿發網採購」（hktdc.com Sourcing）平台。在這個融合展覽模式下，買家更可於12月14至24日期間，透過「商對易」（Click2Match）智能商貿配對平台，與本地及海外供應商安排會議和進行洽商。

2022年的國際環保博覽聚焦香港及粵港澳大灣區支持國家邁向2030年實現碳達峰和2060年達致碳中和的重要目標。博覽以「綠色創科•力爭碳中和」為主題，探討四大重點議題：「碳中和」、「新能源」、「綠色金融及ESG（環境、社會及企業管治）」及「綠色運輸」。會場匯聚超過220家來自九個國家及地區的參展商，並劃設多個展區，包括「環保產品」、「綠色建築及能源效益」、「綠色金融及ESG相關服務」、「綠色運輸」、「廢物處理及循環經濟」、「水處理及水質管理」，以及「初創專區」。

亞洲環保會議為一年一度的焦點活動，今年一眾重量級講者就「循環商業模式」、「氫能經濟」、「建築節能改造」和「綠色及可持續金融」等議題分享他們的真知灼見。

在協助社會實現碳中和的過程中，消費者與政府決策者及生產商同樣肩負重任。正因如此，每年國際環保博覽在最後一天均免費開放予公眾人士入場，今年也不例外。歡迎各位蒞臨參加環保講座及工作坊，並到「綠色市集」選購各種環保產品。

我們謹代表香港貿發局、法蘭克福展覽及所有協辦和支持機構，祝願各位在國際環保博覽洽商成功，來年業務蒸蒸日上。

香港貿易發展局  
總裁  
方舜文

法蘭克福展覽（香港）有限公司  
執行董事  
李慶新

# 歡迎辭

歡迎各位蒞臨香港會議展覽中心出席國際環保博覽2022。今年的國際環保博覽是香港特別行政區成立25周年的慶祝活動之一，可謂別具意義。本屆博覽以「綠色創科•力爭碳中和」為主題，配合特區政府致力在2050年前實現碳中和的目標，並突顯智能科技在推動可持續發展方面擔當的重要角色。

國際環保博覽是香港及區內環保領域的年度矚目盛事，今年將繼續肩負重任，為企業家、學者、專業人士和優秀的年輕人提供平台，就減碳方案交流意見，並讓企業及其他政府機構展示先進科技及產品，以應對氣候變化的挑戰，致力把香港構建成世界級的智慧城市。環境及生態局將牽頭聯同10個政府決策局及部門，介紹一系列創新及環保措施，當中聚焦五大重點範疇，即「淨零發電」、「節能綠建」、「綠色運輸」、「全民減廢」及「智能科技」。

為展示可持續發展與經濟增長可以並行不悖，今年的亞洲環保會議將再次探討「綠色及可持續金融」議題，並首次涵蓋「碳市場」範疇。我們必須積極把握綠色經濟轉型帶來的龐大綠色金融機遇，以提升業界抵禦氣候風險的能力，並鼓勵更多金融機構落戶香港。此外，今年的亞洲環保會議增設「氫經濟論壇」環節，闡述香港在2050年前實現車輛零排放和運輸界別零碳排放的長期目標，讓持份者藉此洞悉先機。

與此同時，我們要充分把握香港背靠祖國、面向國際的獨特優勢，全力抓緊國際環保博覽帶來的種種發展機遇，引進國際資金開展合作及共同投資，以創造有利環境，為未來開拓環境資源。此外，粵港澳大灣區內各城市的合作將會更趨深入廣泛，務求將大灣區打造成風景如畫及具經濟活力的模範綠色地區。

我們誠邀商界和市民攜手展開香港深度減碳之旅，力爭在2050年前實現碳中和，為應對全球氣候變化出一分力。期望各位鼎力支持並積極參與國際環保博覽2022，令博覽得以圓滿舉行。就讓我們繼續一起探索，共同說好香港的環保故事。

香港特別行政區  
環境及生態局局長  
謝展寰

Brandname(s): Carbonbase

### **CarbonCure Technologies Inc 1A-E16**

42 Payzant Avenue, Dartmouth NS B3B 1Z6, Canada  
Tel: 1-236-688-6494  
Email: [jcampbell@carboncure.com](mailto:jcampbell@carboncure.com) Website: [www.carboncure.com](http://www.carboncure.com)  
hktcd.com Sourcing Profile:  
<https://sourcing.hktcd.com/en/supplier-store/carboncuretechnologies>  
Product(s): CarbonCure's innovative technology is a direct way to reduce embodied carbon. The technology is retrofitted into concrete plants and enables concrete producers to inject captured CO<sub>2</sub> into fresh concrete during mixing. Once injected, the CO<sub>2</sub> reacts with the concrete mix and becomes a mineral that is permanently embedded. Best of all, the CO<sub>2</sub> mineralization also increases the concrete's strength, resulting in economic and climate benefits. Producing concrete with CarbonCure reduces reliance on cement, optimizing operations and helping to reduce the carbon footprint of the concrete industry.

### **Centre Testing International Group Co, Ltd. ONL-39**

---

**Winboss Industrial Co., Ltd. 1A-E21**

No. 1, Lane 201, Jen Hua Rd., Ta Li District, Taichung City, 41278, Taiwan  
Tel: 886-4-24919871 Fax: 886-4-24918223

Email: tina@winboss.com Website: <https://www.winboss.com>

hktcd.com Sourcing Profile:

<https://sourcing.hktcd.com/en/supplier-store/winbossindlcomltd>

Product(s): Winboss Industrial Co., Ltd. is a leading NBR/PVC foam manufacturer in Taiwan for more than three decades, offering high performance soft foam in the world. With the growing trend of eco-friendly concept these years. Winboss has ECO-FRIENDLY GAIA foam which is PVC free, light and comfortable. Our GAIA foam is having great characteristic in floating and heat preservation and these can be applied in garments, kayak apparels as well as thermal products. For the floating function, GAIA foam is ISO/UL/ULC approval and widely applying to kayak jackets, buoyancy aids and other fields. We are now working with world famous cooler customers to explore and expand our GAIA foam to insulation and cushioning. It may widely apply in cooler, shoes, gloves, saddles, gardening knee pads and more for eco related developments.

Brandname(s): GAIA

Established in the UK in 1994, we focus on the design, construction, operation and delivery of organic waste treatment plants Industry leader with a range of businesses.

### Project experience

- Design of more than a dozen anaerobic digestion projects: both the design of the whole process and the pre-treatment part of the design
- Successful delivery of multiple complex EPC projects
- More than 25 years of construction experience
- Municipal Sludge Project - 14 successful delivery projects
- 7 composting plants have been put into operation

Agrivert provides cost-effective, sustainable organic waste management solutions to the waste and water sectors. Over 25 years we have carefully developed a leading position in the organics treatment market. We operate in a unique portion of this market; simultaneously designing and building complex treatment plants for others, whilst building and operating our own plants.

### ANAEROBIC DIGESTION

## 怡和機器 Jardine Engineering Corporation

The Jardine Engineering Corporation Limited (JEC) enables customers to operate their facilities at world-class standards by providing the contracting expertise to design, supply and install building and specialized processes; facility operation and management; asset enhancement and energy management; and the sourcing of electrical and mechanical equipment and architectural fixtures.

Established in Shanghai in 1923, JEC is headquartered in Hong Kong and operates throughout Asia. JEC is a member of the Jardine Matheson Group.

# MOVING AT THE SPEED OF YOUR THOUGHTS

TrendForce offers innovative solutions to help businesses unlock new opportunities in the technology industry.

- Embody just society under environment
- Proclaim discrimination from existing journalism
- News with opinions & ideology
- Environmental-independent journalism with free talking

#### Eco-Times :

- **Embody just society under environment.**  
As a journalism criticizing environmental issues, we focus on providing alternative idea based on fair & definite insight into reality without a piece of disgrace.
- **Proclaim discrimination from existing journalism.**  
Eco-Times proclaims discrimination from existing journalism and also embodies upgrade of environment-related journalism under on / off lines with one voice of leading journalists.
- **News with opinions & ideology.**  
Eco-Times provides creative news under motto of 'news of alive opinions & ideology' by showing current news trend of pending issues with different viewpoint from existing sight and focusing on in-depth report thru on-site inspection.
- **Environmental-independent journalism with free talking.**  
Eco-Times is in favor of pros & cons on environmental topic, and establishes amicable relationship with readers of the same opinion on environmental issues by risk monitoring & providing alternative idea, and also builds up environmental-independent journalism thru our own opinions without compromising with any other specific authority group.

Our major readers are comprised of opinion leaders like journalists, faculties, government officials, CEO, field experts & civilian activists.

# Hong Kong Council for Testing & Certification / Hong Kong Accreditation Service

## 香港檢測和認證局 / 香港認可處

The Hong Kong Council for Testing and Certification (HKCTC) was established in 2009 to advise the Government of Hong Kong Special Administrative Region on the overall development strategy of the industry and to introduce new measures to support industry's development. HKCTC's vision is to develop Hong Kong into a testing and certification hub in the region by reinforcing the branding of "Tested in Hong Kong, Certified in Hong Kong".

Hong Kong Accreditation Service (HKAS) provides accreditation for laboratories, certification bodies and inspection bodies located in Hong Kong, through the Hong Kong Laboratory Accreditation Scheme (HOKLAS), Hong Kong Certification Body Accreditation Scheme (HKCAS) and Hong Kong Inspection Body Accreditation Scheme (HKIAS) respectively.

香港檢測和認證局於2009年成立，負責就檢測和認證業的整體發展策略向香港特別行政區政府提出意見，並推出新的措施促進行業發展。該局的願景是藉著加強「香港檢測·香港認證」的品牌，把香港發展為區內的檢測和認證中心。

香港認可處(HKAS)分別透過香港實驗室認可計劃(HOKLAS)、香港認證機構認可計劃(HKCAS)，以及香港檢驗機構認可計劃(HKIAS)，向設於香港的實驗室、認證機構及檢驗機構提供認可服務。

### 全港首創石油氣發電式增程系統

The first LPG range-extended electric system in Hong Kong

1. 相比起其他LPG小巴，GPT小巴的節能效果提升20%，排放物減少20%；

2. 低地台入口及輪椅位設計，以應對香港人口老年化及無障礙通行殷切需求；

3. 增程系統上設計了多源電源接口，可使用其他清潔能源。

1. Compared with other LPG minibuses, the GPT minibus increases the energy-saving efficiency by 20% and reduces emissions by 20%.

2. The design of low-floor entrance and wheelchair accessible can satisfy the demand of the aging population and barrier-free transportation in Hong Kong.

3. The range-extended system is designed for multiple power interface and can be switched to other clean energy.

**TURN YOUR ROOF INTO AN INCOME EARNER!**

**SolarFuture**

Assist Hong Kong's move towards a cleaner, greener future with a Solar Installation from SolarFuture.

**"As gas and electricity prices soar, harnessing solar energy is the answer. I'm already being paid by CLP more than 2-3 times what I use each month in electricity.**

**Once I pay off the installation of the system, that's it. I'll be earning green money every month. Solar Future are experts in their field, incredibly knowledgeable, experienced in DB installation and always available if we have questions or need help with anything. Their team of workers are enthusiastic and very polite to deal with. I would highly recommend them."**

**Nick Flavell,  
DB Resident,  
Headland Drive**

**The Hong Kong Feed In Tariff Scheme (FIT) allows Homeowners and Landlords to install Solar panels on their rooftop and to sell the electricity generated back to the power utility (CLP).**

**A Solar Installation is a great way for a Homeowner to future-proof themselves against rising electricity costs, or for a Landlord to increase the returns from their Investment property.**

**If you are a Landlord speak to us about a separate dedicated meter for your Solar Installation ensuring you receive the returns from your investment with no need to involve your tenants.**

**Call us today and let us help you with your Solar Installation whilst FIT rates are still high!**

# SSGE BIO-ENERGY

## Agricultural Biocoal

From agricultural waste to renewable energy

## AGRI BioCoal

SSGE AGRI BioCoal is a carbon neutral, renewable agriculture based solid fuel that is a replacement for fossil coal. Not only does it reduce new CO2 emissions created by fossil fuels, it also stimulates agricultural economies and helps improve living standards in those communities. SSGE has adopted the global standards set forth by the Roundtable for Sustainable Biomaterials, RSB.

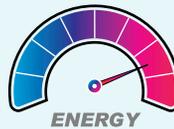

### Carbon Neutral

Combustion of SSGE AGRI BioCoal only emits the CO2 already stored in its agricultural feedstock

### Hydrophobic

Because SSGE AGRI BioCoal is waterproof, no special handling or storage requirements are needed

### High Energy

A near equivalency with fossil coal, SSGE AGRI BioCoal has an energy density of 4,800-5,000 kcal/kg

### Renewable

Abundant and renewable agricultural residues are the only feedstock used for SSGE AGRI BioCoal

At Kai Tak District Cooling, an energy efficient centralized cooling system produces chilled water to cool down nearby buildings

At T. Park, the 100% water and energy autonomous facility combines advanced technologies and an ecological approach to treat sludge and create green electricity

At Southa, we help clients decarbonize buildings through a suite of smart building digital solutions

At EKJV, chemical and clinical waste are treated and recovered 24/7 safely

At Green Valley Landfill, construction waste is handled alongside a landfill gas treatment facility onsite to generate energy from waste.

Veolia group is the global leader in optimized resource management. The Group designs and provides water, waste and energy management solutions that contribute to the sustainable development of communities and industries.

In Hong Kong, Veolia designed, built and operates landfills, waste transfer stations, chemical waste treatment facility, sludge treatment facility, organic waste treatment facility, district cooling system. Veolia is also expert in building services, managing and enhancing energy performance for clients.

威立雅集團是全球優化資源管理的領導者，我們設計並提供水、廢棄物和能源管理方案，推動社區和工業的可持續發展。

威立雅在香港設計、建造及營運堆填區、廢物轉運站、化學廢物處理中心、泥處理設施、有機資源回收中心、區域供冷系統。威立雅亦致力為客戶管理並提高樓宇能源績效。
